## **1.0 OVERVIEW**

Under the Clean Water Act (CWA), EPA establishes technology-based national regulations, termed “effluent limitations guidelines and standards,” to reduce pollutant discharges from categories of industrial facilities to waters of the United States. Under the CWA, EPA similarly establishes technology-based regulations, termed “pretreatment standards” to reduce indirect pollutant discharges from industrial facilities to waters of the United States.

The CWA also specifies effluent guideline planning and review requirements. There are different requirements for direct and indirect dischargers, but both specify annual review of promulgated effluent guidelines and pretreatment standards. For direct dischargers, the CWA requires EPA to publish an Effluent Guidelines Program Plan every two years after allowing for public review and comment on the plan prior to final publication.

This document provides information on the documents and analyses in the docket supporting the 2008 annual review and the Final 2008 Effluent Guidelines Program Plan. See the Federal Register Notice presenting EPA’s 2008 annual review and the Final 2008 Effluent Guidelines Program Plan, 73 Fed. Reg. 53218 (15 September 2008).

## **2.0 BACKGROUND INFORMATION ON THE DOCKET**

### What is the Docket and How Can I Gain Access to It?

Docket ID No. EPA-HQ-OW-2006-0771 is the official docket for EPA’s Final 2008 Effluent Guidelines Program Plan and its 2008 annual review of existing effluent limitations guidelines. The official docket consists of the documents specifically referenced in the Federal Register notices of these actions, any public comments received, and other related information. Although it is a part of the official docket, Confidential Business Information (CBI) or other information whose disclosure is restricted by statute is not included in the materials available to the public.

The official public docket is the collection of electronic and hard copy materials that is available for public viewing at the Water Docket in the EPA Docket Center, (EPA/DC), located in the EPA Headquarters Library, EPA West, Room Number 3334, 1301 Constitution Ave., NW, Washington, DC. An electronic version of the public docket is available through a federal-wide electronic docket management system located at [www.regulations.gov](http://www.regulations.gov).

You may use the Regulations.gov web site to view public comments, access a listing of the contents of the official docket, and access those documents in the public docket that are available electronically. Certain documents are not available in the electronic docket system. These documents include but are not limited to copyright-protected material and physical objects such as maps, aerial photographs, colored charts, etc. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials at the EPA Docket Center.

How is the Docket for EPA's Final 2008 Effluent Guidelines Program Plan related to the Docket for the 2006 Effluent Guidelines Program Plan?

The CWA requires EPA to publish an Effluent Guidelines Program Plan every two years after allowing for public review and comment on the plan prior to final publication. Documents supporting the 2006 Effluent Guidelines Program Plan and the 2005 and 2006 annual reviews of existing effluent limitations guidelines are located in Docket ID No. EPA-HQ-OW-2004-0032. This docket (Docket ID No. EPA-HQ-OW-2004-0032) is incorporated by reference into the docket for the 2008 Final Plan and the 2008 annual review of existing effluent limitations guidelines (Docket ID No. EPA-HQ-OW-2006-0771). See EPA-HQ-OW-2006-0771-0822 in Section 6.1. This means that all of the documents in the docket supporting the 2006 Plan and the 2005 and 2006 annual reviews also support the Final 2008 Plan and the 2008 annual review. Finally, EPA also incorporated by reference all of the documents in the docket supporting the 2004 Plan and the 2003 and 2004 annual reviews into the docket supporting the 2006 Plan. See EPA-HQ-OW-2004-0032-0677.

### **3.0 ACCESSING INFORMATION IN THE DOCKET**

#### How Do I Find Documents in the Docket?

##### *Water Docket in the EPA Docket Center*

The official public docket is the collection of electronic and hard copy materials that is available for public viewing at the Water Docket in the EPA Docket Center, (EPA/DC), located in the EPA Headquarters Library, EPA West, Room Number 3334, 1301 Constitution Ave., NW, Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the Water Docket is (202) 566-2426. You can also contact the Water Docket via e-mail: OW-Docket@epa.gov.

##### *Regulations.gov*

You will find instructions for using Regulations.gov on its Internet home page. Regulations.gov provides limited electronic search capabilities. If you know the Document ID Number (e.g., EPA-HQ-OW-2006-0771-0001) of the document you wish to view, you can type that number directly into the field beneath the "Search Documents Heading."

If you do not know the specific Document ID Number, you can input the docket identification number (EPA-HQ-OW-2006-0771) in the field beneath the "Search Documents" heading and click Search. You will now see a listing of the contents of the official docket in the public record. The listing includes the Document Title (e.g., "Notice of Availability of Final 2008 Effluent Guidelines Program Plan"), Document ID Number (e.g., EPA-HQ-OW-2006-0771-0001), Date Posted (e.g., "10/30/2007"), Document Type (e.g., "Notice"), and other information.

---

You have several options to narrow your search within the docket listing by using the filters on the left hand side of the web page. For example, you can use the Regulations.gov “Search Again” to enter search terms. Or, you can choose to view only documents by Agency (e.g., EPA), Document Type (e.g., Public Submissions), or Comment Period.

What is the Docket EPA-HQ-OW-2006-0771 Subject Outline?

EPA has prepared a *subject outline* of the documents included in EPA-HQ-OW-2006-0771 to help you locate documents that address related topics or subjects. The subject outline for EPA-HQ-OW-2006-0771 is provided in Attachment 1. Each section of the subject outline contains one or more documents that relate to a particular subject or topic. With the exception of public submissions, each document in the docket has been assigned to an outline section.

What is the Docket EPA-HQ-OW-2006-0771 Subject Index?

The docket EPA-HQ-OW-2006-0771 *subject index* is a list of documents in the docket, sorted by subject outline section, available as Attachment 2 to this document. Because of its size, Attachment 2 is available separately, at DCN 06184A1. Each document in the docket has two document identification numbers. One is the Regulations.gov Document ID Number (e.g., EPA-HQ-OW-2006-0771-1701) that was assigned when EPA added the document to the official docket. The second is the document control number (DCN) that was assigned during the development of the document (e.g., DCN 05515). In documents prepared for the docket, EPA typically identified references by their DCN. The DCN appears at the end of the document titles in the **Document Title** field listed in Regulations.gov (e.g., “Technical Support Document for the 2008 Effluent Guidelines Program Plan - DCN 05515”). Public Submissions (comments) that were submitted directly to the docket by the public also have DCNs and are included in the *subject index*.

The subject index summarizes certain information for each document, including the subject outline section, Regulations.gov Document ID Number, DCN, document title, author, and abstract.

The subject index for the docket includes the following fields in order of appearance:

<b>Field Name</b>	<b>Description</b>
Subject Outline Section	Section number from docket outline.
DCN	Unique document control number (DCN) assigned during the development of the document.
Document Sub-type	Sub-type of supporting and related materials.
Title	Title of document.
Abstract	Additional description of document.
Pages	Number of pages in document.
Author	Author of document (Last name, first full name).
Author Date	Date of publication, issue, edition, or version. Actual date of meeting or telephone call.
Source Citation	For copyright protected documents, this is a bibliographic citation (without title or author) that you can use to find the document in a library. For materials retrieved from the Internet, Source Citation lists the URL.
Category/Industry	Name for a category with existing guidelines or name for industry without existing guidelines.
Copyrighted	(Checked Tif Yes) - Materials that are copyright protected (e.g., books and other published material). These documents are not available through Regulations.gov but are only available in hard copy at the EPA Docket Center.
CBI	Confidential Business Information (Yes/No). CBI is not available to the public.
Regulations.gov Document ID Number	Unique document number assigned when EPA added the document to the official docket. The Document ID Number includes the Docket Number followed by a consecutive document number.

### How Do I Use the Subject Listing to Find Documents in the Docket?

Review the subject outline to determine which section may contain the documents of interest. Then, locate documents for that section in the index and note their Regulations.gov Document ID Number. Documents available electronically can be accessed through Regulations.gov. Other documents can be reviewed at the Water Docket in the EPA Docket Center in Washington, DC. See information on the Water Docket above. You may also be able to locate copyright protected materials (for example, articles from technical publications) at an academic or public library.

### Confidential Business Information

The docket contains some documents that contain confidential business information (CBI). CBI documents are not available for review by the public, and are not filed in the Water Docket in the EPA Docket Center. Some documents are classified as CBI because companies providing the information specifically claimed certain information (e.g., operating or financial data) as CBI. Other documents are classified as CBI because release of these documents could indirectly reveal information claimed to be confidential.
